A floor plan diagram of a kitchen and living area. The kitchen area is on the left, featuring a sink, a four-burner stove, and a refrigerator. A dashed line separates the kitchen from the living area. The living area includes a sofa, a coffee table, and a television. A doorway leads to another room. Labels with arrows point to various components: 'cabinet' (pointing to the upper kitchen cabinets), 'refrigerator' (pointing to the refrigerator), 'gas up and over' (pointing to the stove), 'living room' (pointing to the living area), 'new gas valve' (pointing to a valve near the kitchen entrance), and 'watering to kitchen' (pointing to a pipe leading to the kitchen sink).
